CORRECTIONS

Amounts due and unpaid on postal debt settlements have, in the past, been reported incorrectly for most countries. New Postal Service reporting procedures, implemented for the September 30, 1991 accounts receivable submission, revise to zero the amounts shown as "due and unpaid 90 days or more" for all countries except Cuba, Guatemala, and Haiti. Amounts reported as "outstanding" are correct.

A number of reports by the Department of Agriculture for amounts due and unpaid 90-days or more on Long-Term Dollar Sales (PL-480) credits to Israel were incorrect. The following table lists the corrected amounts.

<u>Treasury</u> <u>As of Date</u>	<u>Number</u>	<u>Due &amp; Unpaid Principal</u>	<u>90 Days or More</u>	<u>Interest</u>	<u>Total</u>
3/31/87	690001	\$ 338	\$ 0	\$ 0	\$ 338
	700006	0	0	0	0
	760018	169	0	0	169
	Other Credits	<u>\$ 2,637</u>	<u>0</u>	<u>0</u>	<u>2,637</u>
	Program total	<u>\$ 3,144</u>	<u>0</u>	<u>0</u>	<u>\$ 3,144</u>
6/30/87	690001	\$ 338	\$ 0	\$ 0	\$ 338
	700006	0	0	0	0
	760018	169	0	0	169
	Other Credits	<u>\$ 2,637</u>	<u>0</u>	<u>0</u>	<u>2,637</u>
	Program total	<u>\$ 3,144</u>	<u>0</u>	<u>0</u>	<u>\$ 3,144</u>

## PREFACE

This report presents a record as of September 30, 1991, of the status of foreign assistance related agreements of contractual indebtedness to the United States Government. The data on such foreign assistance related indebtedness to the United States Government includes accounts receivable from foreigners, as well as active short-term and long-term loans and credits to foreigners. The report does not include international claim settlements by the United States Government payable to American nationals (except for such claims included in the statistics on the German World War I indebtedness). Reports on active long-term credits have been compiled by the Department of Treasury since June 30, 1967, pursuant to section 634 (a) (4) of the Foreign Assistance Act of 1961, (Public Law 87-195, as amended), and have been presented in previous editions of this publication. Tables on short-term loans and credits and accounts receivable have been compiled since June 30, 1972, pursuant to a request of the Foreign Operations and Government Information Subcommittee of the Committee on Government Operations, House of Representatives. This report is published for data as of June 30, September 30, and December 31 each year. March 31 data are not published.

The report lists data on active long-term loans and credits extended by the United States Government between July 1, 1941, and the date of the report. An active credit is one with an outstanding principal indebtedness or an available unused authorization. Fully repaid loans and credits are excluded. The report also contains data for short-term loans and credits and accounts receivable, and on foreign government indebtedness to the U.S. Government which arose from World War I.

The indebtedness reported (except for that arising out of W.W.I.) originated under authority of the following legislation, as amended, and international agreements:

- (1) Foreign Assistance Act of 1961 (Public Law 87-195 as amended) legislation for predecessor programs, and the Arms Export Control Act 1/
- (2) Mutual Educational and Cultural Exchange Act of 1961
- (3) Agricultural Trade Development and Assistance Act of 1954 (Public Law 83-480)
- (4) Commodity Credit Corporation Charter Act
- (5) Export-Import Bank Act of 1945
- (6) Lend-lease Act of 1941
- (7) Surplus Property Act of 1944 and related legislation
- (8) Atomic Energy Act of 1958
- (9) Euratom Cooperation Act of 1958
- (10) Special legislation enacted for particular transactions, such as the British loan of 1945 and the loans to the United Nations
- (11) Universal Postal Union Agreement of 1964
- (12) An act to promote safety at sea, 1922
- (13) Isthmian Canal Convention of 1903
- (14) Legislation granting general and specific operational authority to government agencies and corporations.

The Department of the Treasury expresses its appreciation for the cooperation of United States government agencies in making the necessary data available for this report.

---

1/ All military sales, beginning with fiscal year 1969, have been extended under the Arms Export Control Act (formerly, the Foreign Military Sales Act). Previous foreign military sales were extended under the Foreign Assistance Act of 1961.

## EXPLANATORY NOTE

Data on loans and credits to foreigners by the United States Government are compiled from reports submitted to the Department of Treasury by the various operating agencies pursuant to Treasury Circular No. 1080, as revised January 26, 1976.

## EXPLANATION OF TABLES

### Consolidated Tables by Type of Program and Obligor

The amounts listed for "Credit Utilized and Still Outstanding" and those "Principal and Interest Due and Unpaid 90 Days or More" are the sum of the amounts owed by type of obligor (either official government or private) and reported in the more detailed maturity classification tables: accounts receivable, short-term loans and credits, and long-term loans and credits.

### Maturity Classifications

The principal indebtedness reported is classified by the various operating agencies into three categories on the basis of the original or formally extended maturity of the obligations: accounts receivable, short-term loans and credits, and long-term loans and credits.

Accounts receivable are obligations with an original maturity of less than 90 days from the effective date of the obligation.

Short-term loans and credits are obligations with an original maturity of 90 days or more to and including one year.

Long-term loans and credits are obligations with an original maturity of more than one year.

## Credit Program

Credit program titles are listed and indicate the programs under which foreign indebtedness to the U.S. Government has been created. These programs have been undertaken pursuant to the various legislative acts and agreements referenced in the Preface.

Transactions reported as "Currency Loans to Foreign Governments" under the Agricultural Trade Development and Assistance Act of 1954, as amended 1/, are primarily to foreign central governments. However, approved borrowers in this category have also included private entities, educational institutions, technical institutes, local governments, and development banks. This subclassification includes credits arising from disbursements of foreign currencies under the following subsections of Section 104 of Title I of the Agricultural Trade Development and Assistance Act of 1954, as amended:

104(c), "to procure military equipment, materials, facilities, and services for the common defense." [Repealed--1975]

104(f), "to promote multilateral trade and agricultural and other economic development." 2/

104(g), "for the purchase of goods or services for other friendly countries."

---

1/ The Agricultural Trade Development and Assistance Act of 1954 (Public Law 83-480) has been amended many times. The citations in this text refer to the subsections in effect when the credits were extended.

2/ This section of the Act, under which the majority of the loans of foreign currencies has been made, was formerly subsection 104(g).

The transaction reported as "Asset Acquired in European Fund Liquidation" shows the status of a long-term obligation of the Government of Turkey assigned to the U.S. Government by the Organization for Economic Cooperation and Development, executive agent for the European Fund of the European Monetary Agreement, in connection with the liquidation of the Fund. The transaction represented the return to the United States of part of the capital assets (and accumulated earnings thereon) granted by the U.S. Government to the European Payments Union, the predecessor of the European Monetary agreement; the balance was transferred in cash.

#### Country and Program

Entries in the "Country" and "Program" columns were provided for this report in many instances by automatic data processing methods from the operating agencies and have been reviewed or edited by the Department of the Treasury only to a limited extent.

Under the Foreign Assistance Act in the subclassification "Country Loans", the Agency for International Development (AID) makes some two-step loans. In these loans, the host foreign government may elect to collect the repayments from the borrower (or primary obligor) and then repay the U.S. Government on an extended schedule. In some instances the borrower repays the host government in its local currency at some agreed interest rate, which is generally higher than the rate of interest repaid to the U.S. Government by the host government. While this report shows as the borrowers the entities actually receiving the loan or credits, the interest rates shown for such credits are those the host governments would pay in the event they elect, as they generally do, to collect from the borrowers and repay the U.S. Government. Principal and interest collections recorded are those actually received by the U.S. Government, whether from the primary obligor or the foreign government.

#### Signature Date

Entries in the "Signature Date" column of Table VII-2 are those reported by the agency responsible as the date the loan or credit agreement with the borrower was signed.

## FOREIGN CURRENCY TRANSACTIONS

In addition to loans and credits repayable in dollars, this report also lists transactions which are denominated in and/or repayable in foreign currencies. Such transactions have occurred primarily under the various subsections of the Agricultural Trade Development and Assistance Act of 1954, as amended, whereby the U.S. Government has sold surplus agricultural commodities in many countries and has received foreign currencies in payment, part of which may then be relent by the United States for economic development and other purposes specified in the Act. Foreign currency transactions have also been generated under other legislation, including predecessor programs to the present Foreign Assistance Act.

### Calculations of Dollar Equivalents

Because of the differing situations with regard to the exchange value and convertibility of foreign currencies, it is difficult to arrive at accurate comparability of foreign currency data as among various geographic areas, countries, programs, and currencies of repayment. The problem is only minor in respect of loans "repayable in foreign currency with maintenance of dollar value," for the obligations are denominated in dollars and all current activity is stated in dollar amounts.

The more difficult problem arises in determining the U.S. dollar equivalent for data on loans "repayable in foreign currency without maintenance of dollar value," where activity is recorded in foreign currency amounts. Nevertheless, an attempt has been made to achieve some degree of comparability through the calculation of dollar equivalent for such transactions on the basis of procedures stipulated in regulations of the Department of the Treasury. Foreign currency data are not shown or identified. Dollar and dollar equivalent data as of the date of the report are presented.

All outstanding balances as well as the disbursed, undisbursed, and amortized balances of credits denominated in foreign currencies are converted by United States government agencies to U.S. dollars at exchange rates prevailing as of the date of the report in accordance with Treasury Circular No. 930.

Transactions of the Social Progress Trust Fund are valued as reported by the Inter-American Development Bank, which serves as administrator of the Fund.

#### SUPPLEMENTAL INFORMATION

Totals are the rounded sums of unrounded numbers, so that the rounded detail entries do not necessarily add to these totals.

Certain individual loans and credits of the Export-Import Bank may show negative values. These arise from time to time from the conventions used within the Export-Import Bank accounting system, reflecting the special timing of various transactions entries, and/or incomplete debt reconciliations with parties concerned.

Rates of interest listed for Arms Export Control Act credits reflect a weighted average of the rate of interest applied to each tranche of the credit drawn. Once a credit has been fully disbursed the rate of interest listed is the consolidated rate of interest applied to the fully disbursed credit.

The "China (Unspecified)" category is used to refer to obligations incurred by China prior to 1949 whose status is currently under review.

The repayment terms on certain loans and credits extended to Indonesia have been changed pursuant to a Debt Reorganization Agreement with that country. The status of each portion of the reorganized Indonesian debt is shown under the respective program headings as reported by the agencies involved. In the Indonesia section of Table VII-2, the status of the debt reorganization agreement and an entry deducting the sum of reorganized debt reported by the agencies appear under the program heading "Debt

Reorganization and Adjustments." Program totals under the "Debt Reorganization and Adjustments" heading are net differences and appear on relevant summary pages: over the entire term of the debt reorganization agreement, the adjustment to the "Principal Outstanding" column will be zero.

Amounts Due and Unpaid 90 Days or More

Data are included showing amounts overdue 90 days or more (as of the date of the report). In the case of loan agreements with a schedule of repayment dates, the 90 days are calculated from the due dates of the payments which are incomplete. For accounts receivable, the reference point is the date on which payment is customarily expected. Amounts due and unpaid 90 days or more on obligations guaranteed by a foreign government or agency of a foreign government, such as a central bank, are shown as due from official obligors.

A credit with an amount overdue is not necessarily in default. The arrearages reported are frequently technical, pending conclusion of discussions or negotiations between the borrower and the collecting agency.

Refund Claims on Grants and Long-term Loans

Foreign Assistance Act country loan and grant agreements contain provisions governing the application or use of proceeds by the borrowers. In cases in which the review procedures of the Agency for International Development indicate disbursements may have been used for purposes that did not meet these requirements, the Agency for International Development bills the borrower for a refund of the disbursements. The greater part of refund claims derive from grant agreements. Grant-origin refund claims are accounts receivable but are not included in Tables III-1 and III-2. In those instances where the refund claim derives from a loan agreement the amounts are included in the outstanding principal amounts reported for individual Foreign Assistance Act country loans. Country totals for the outstanding amounts of the refund claims, and for the amounts which are due and unpaid for 90 days or more, are shown separately in Table V.

The amounts of refund claims overdue 90 days or more are excluded from Tables III-1 and III-2 on accounts receivable and Tables VI-1 and VI-2 on amounts due and unpaid 90 days or more on long-term loans and credits.

#### Relationship of This Report to Other Published Data

In addition to the present report, similar data (as of December 31) appear in the National Advisory Council on International Monetary and Financial Policies Annual Report. The data here given agree by country and program with those tables with a few minor exceptions arising from the timing of agency reports. Such differences are explained in the above referenced report.

The September 30th issue of this report is also published in lieu of Table III of Statistical Annex 3 of the Annual Report of the Chairman of the Development Coordination Committee and submitted to the Congress in partial fulfillment of the reporting requirement in the Foreign Assistance Act, section 634(a)(4).

#### Data Not Included in This Report

As previously noted, this report includes only data relating to active loans and credits. Cumulative amounts disbursed (utilized) as well as amounts fully repaid or otherwise terminated since July 1, 1945, may be found in the tables compiled by the Bureau of Economic Analysis, U.S. Department of Commerce, for the statistical appendix of the annual report of the National Advisory Council.

This report does not include information on indebtedness due on any international claims settlements in which the U.S. Government has entered into an agreement with a foreign government in order to collect claims due to American nationals (except for such claims included in the statistics on the German World War I indebtedness). Information on the value of foreign currencies held on deposit by the U.S. Government which have been generated from the sale of agricultural and other commodities or services by the Government is not contained herein. That information is reported

regularly in the Report on Foreign Currencies Held by the U.S. Government published by the Financial Management Service, Department of the Treasury. Also excluded are data on loans or other investments made by U.S. private institutions, even if such transactions carry credit risk insurance or any other guarantee by a U.S. Government agency. Such data on the outstanding foreign insurance and guarantee programs of the United States Government are reported in the companion Treasury publication, Contingent Foreign Liabilities of the United States Government.

Western Hemisphere Unspecified:	5,769,959	0

NOTE: Totals may not add due to rounding.

1/ Credits guaranteed by foreign governments are classified as credit to the official sector.

2/ Estimates included for U.S. dollar equivalent of receivables denominated in other than U.S. dollars and/or payable in foreign currencies, goods, or services at the option of the debtor:

35,974,288 1,181,224

3/ Credits with an amount overdue are not necessarily in default, the arrearages reported are frequently technical, pending conclusion of discussions or negotiations between the borrower and the collecting agency.

NOTE: (\*) designates less than \$50,000. Detail may not add to totals due to rounding.

1/ Includes estimates for the U.S. dollar equivalent of receivables denominated in other than dollars and/or payable at the option of the debtor in foreign currencies, goods or services. The total amount of such estimates approximates \$328.2 million as of September 30, 1991. Long-term loans and credits have an original maturity of more than 1 year.

2/ Excludes outstanding interest deferred by formal agreement or in arrears, but includes capitalized interest.

3/ Reflects debt reorganization adjustment pursuant to a debt reorganization agreement with Indonesia. Over the entire term, this adjustment will be zero.

<b>Agreement of February 27, 1953:</b>						
Mixed claims (U.S. \$)	97,500,000	0	97,500,000	0	0	0

1/ Agreement of February 27, 1953, provided for cancellation of 24 bonds totaling 489,600,000 reichsmarks and issuance of 26 dollar bonds totaling \$97,500,000. The dollar bonds matured serially over 25 years beginning April 1, 1953.

2/ Includes 4,027,612 reichsmarks (1,529,049 on moratorium agreement (Army costs) and 2,498,563 interest on funded agreement) deposited by German Government in the Konversionkasse fur Deutsche Auslandsschulden and not paid to the United States in dollars as required by the debt and moratorium agreements.

3/ The unpaid portion of this indebtedness is converted at 40.33 cents to the reichsmark, which was the exchange rate at the time of default. The 1930 agreement provided for a conversion formula for a payment relating to the time of payment. These figures are estimates made solely for this statistical report.

4/ Payments are converted to U. S. dollars at rate applicable at the time of payment: i.e., 40.33 or 23.82 cents to the reichsmark.
